Body text

Cool Grey

#A8ADB3
RGB 168 / 173 / 179
CMYK 6 / 3 / 0 / 30

Captions and dividers

A hierarchy, not a rainbow.

60%

Midnight Navy + White

Primary surfaces, major contrast and editorial breathing room.

25%

Silver + Graphite

Neutral structure, body copy, dividers and refined material cues.

10%

Deep Navy

Depth, footers, technical panels and premium layering.

5%

Emerald

Calls to action, highlights, Nigerian reference and selected emphasis.

CMYK values are approximations. Approve a physical proof for production colour.

Use only approved contrast pairings.

White / platinum logo on Midnight Navy

Navy logo on white

White logo on Emerald

One-colour navy

One-colour black for restricted production

Contrast and restraint signal quality.

DO

Use navy as the field colour and emerald as a precise accent.

Strong contrast
Generous whitespace
One clear focal point

DON'T

Do not flood layouts with bright green or combine several competing accents.

Over-saturated fields
Weak hierarchy
Reduced premium perception

Accessibility target: WCAG AA for normal text and AAA where practical for critical safety information.
