

QUOTATION & PROJECT PROPOSAL

**Residential Lift Solution
Meridian Court Residences, Lagos**

REFERENCE VLN-260609-01

Issued 9 June 2026 • Valid for 30 days

Prepared as an editable sample proposal. Replace commercial values, contacts and project-specific technical information before issue.

PROJECT SUMMARY

A residential lift solution shaped around the building.

VIP Lift Nigeria proposes a coordinated lift-solution package for Meridian Court Residences. The sample scope is structured to support design review, supply, installation, commissioning and ongoing care.

CLIENT	Meridian Court Developments	LIFT TYPE	Residential platform lift
PROJECT	Meridian Court Residences	STOPS	Three
SITE	Victoria Island, Lagos	QUANTITY	One
BUILDING	Private residential duplex	CAPACITY	Up to 400 kg, subject to final selection

Project priorities

- A calm architectural integration suited to a premium residential interior.
- Safe, intuitive access for residents and guests across three levels.
- Clear coordination between lift requirements and the building programme.
- A practical maintenance and service pathway after commissioning.

Important basis

Final equipment, technical dimensions, finishes, power requirements, compliance information, programme and pricing remain subject to site verification, approved drawings and the selected lift system.

SCOPE OF WORK

A coordinated package from review to handover.

1. Site and requirement review

Review intended users, levels served, access conditions, available space, design intent and project programme.

2. System recommendation

Prepare a suitable lift direction and confirm key assumptions for client and consultant review.

3. Supply coordination

Coordinate selected equipment, approved finish information, delivery requirements and project documentation.

4. Installation

Install the lift system in accordance with the approved scope and coordinated site readiness requirements.

5. Testing and commissioning

Complete operational checks, commissioning activities and user handover for the agreed system.

6. Service transition

Confirm warranty administration, maintenance scope, service contacts and the planned support pathway.

COMMERCIAL SUMMARY

Sample quotation

Currency: Nigerian naira (NGN). Figures below are editable sample values for template demonstration.

No.	Description	Qty	Unit price	Amount
1	Residential platform lift system, three stops	1	28,500,000	28,500,000
2	Delivery and installation coordination	1	4,250,000	4,250,000
3	Testing, commissioning and handover	1	1,150,000	1,150,000
4	Initial planned maintenance allowance	1	900,000	900,000
Subtotal				₦34,800,000
VAT (7.5%)				₦2,610,000
Total				₦37,410,000

Commercial assumptions

- Pricing excludes major structural works, builder's works and utility upgrades unless explicitly stated.
- Final tax treatment and payment milestones must be confirmed before issue.
- Programme begins after approved drawings, deposit and confirmed site readiness.

TERMS, WARRANTY & MAINTENANCE

Clear responsibilities support a reliable outcome.

Payment terms

40% with order, 50% before delivery to site and 10% after commissioning. Replace with approved commercial terms before issue.

Validity

This sample quotation is valid for 30 days from the issue date and is subject to final technical and commercial review.

Programme

Indicative lead times are confirmed only after product selection, approved drawings, payment and site-readiness review.

Warranty

Warranty scope, duration, exclusions and commencement date are confirmed in the final contract and manufacturer documentation.

Maintenance

A separate planned-maintenance agreement should define visit frequency, response arrangements, exclusions and renewal terms.

Client responsibilities

Provide accurate site information, coordinated access, safe working conditions, required utilities and timely approvals.

No supplier, authorization, exclusivity or performance claim is made by this sample template. Confirm every public and contractual claim before use.

APPROVAL

Confirm the agreed basis and authorize the next step.

By signing below, the client confirms the commercial and project basis for the next agreed stage, subject to the final contract, approved technical documentation and any recorded qualifications.
